S = Supported with GA version Functionality has been verified

X102+ = Supported with E-distribution X102

* Verified with Servlet API 3.0 / Tomcat v7.0

** Solid 4.5 is no longer supported by IBM. It is included in the Uniface 9.6 distribution solely to assist in the migration to Solid 6.5. Further details are available on the Frontline support site.

(+) Not part of the distribution

(++) Unicode enabled - import signature and recompile calling component(s) (see release notes)

NOTES:

Virtualization technologies: Uniface does not explicitly test or certify products running in virtual environments. More details are available on Frontline.

Web browser Versions: The versions of web browsers listed are the versions we have used for verification purposes. We will provide support for browser versions which are generally available in the marketplace. More details are available on Frontline.

Uniface 64 bit client support is for deployment. More details are available on Frontline
