**Notes:**  
S = Supported with GA version. Functionality has been verified  
S = Supported with E-distribution S  
S1 = For Windows 10 you need to use SDK 16.0 SP02 PL02 or higher.  
S2 = Supported from DB2 10.1.04 or later.  
S3 = Available for 64bit platforms only  
\* The WRD is built using Java 8 targeting JRE 6 or higher and is verified using Tomcat 8. It requires a Java EE compliant web server that supports Servlet API, versions 2.3 through 3.1, using Java 6 or higher, preferably using the latest update of Java 8. For TLS connection with Uniface Router Java 8 or higher is required.  
(+) The Uniface Anywhere product itself is not part of the distribution; mentioned versions are current at release time of this Uniface release  
(++) Unicode enabled - import signature and recompile calling component(s) (see release notes)  
(+++) CEF: Uniface htmlwidget uses the CEF version 81.3.3 with corresponding Chromium version 81.0.4044.138  
NOTES:  
**Virtualization technologies:** Uniface does not explicitly test or certify products running in virtual environments. More details are available on [community.uniface.com](http://community.uniface.com).  
**Web browser Versions:** We will provide support for browser versions which are generally available in the marketplace (and supported by the supplier). More details are available on [Uniface.info](http://Uniface.info)  
**Uniface 64-bit client support is for deployment.** More details are available on [Uniface.info](http://Uniface.info)  
DBMS connectors are tested to work against the indicated client versions
